# POLL: Do you want to meet in-person in Lincolnshire?

## ADDRESS FOR THE NEW OFFICE:

200 Tri-State International  
Lincolnshire, IL

It's by the Half Day Rd. exit of I-94.

# Target Audience for Vox and Wonderbooks

- Check the target audience of the fixed fields for Vox and Wonderbooks records.
- Needs to follow the target audience local practice:  
[https://www.ccslib.org/Catalogers/index.php?title=Target\\_audience](https://www.ccslib.org/Catalogers/index.php?title=Target_audience).
- Example in the Wiki has changed:  
[https://www.ccslib.org/Catalogers/index.php?title=Wonderbooks\\_and\\_VOX\\_Books](https://www.ccslib.org/Catalogers/index.php?title=Wonderbooks_and_VOX_Books).

# Length of 505 Field

- Character limit: 3992 characters
- Polaris adds a second \$a in the 505 after that point.
- Causes problems when saving records.
- Create a second 505 tag from long contents notes.

# Volume Designations for Readers Sets

- Use the volume designation of “set” according to the guidelines in the Wiki:
- Multivolume call numbers:  
[https://www.ccslib.org/Catalogers/index.php?title=Multivolume\\_call\\_numbers](https://www.ccslib.org/Catalogers/index.php?title=Multivolume_call_numbers)
- Use `set` for copies circulated as a set if any other copies on the same title record are circulated individually. If all existing copies are circulated as sets and your library wishes to circulate the individual parts separately, add `set` in the volume field for all of the existing call numbers.
  - If all of the existing copies are circulated as sets and all of them have volume `set`, or one or more call numbers have `set` and one or more others have no volume at all, please remove the volume `set` from all libraries' call numbers.

# Questions?

- Email [help@ccslib.org](mailto:help@ccslib.org).
