Theatrical [\[edit\]](#)

Top Gun: Maverick was released theatrically by [Paramount Pictures](#) in the United States on May 27, 2022, with advance screenings starting the day before.^[137] It was originally scheduled to be released on July 12, 2019, but was delayed to June 26, 2020, in order to shoot several complex action sequences.^[7] By March 2020, Paramount moved the film up two days early on June 24, 2020,^[138] and it was then moved to December 23 due to the ongoing [COVID-19 pandemic](#) declared by the [World Health Organization](#).^{[139][140]} On July 23, 2020, the film was delayed again to July 2, 2021, due in part to scheduling conflicts with Cruise, as well as the recent delays of *Mulan* and *Tenet* due to the rise of [COVID-19 cases](#),^[141] and was further delayed to November 19, 2021,^[142] before finalizing the May 2022 release date.^[137]

The film had its world premiere at [CinemaCon](#) on April 28, 2022^[143] which was followed by a global premiere hosted at the [San Diego Civic Theatre](#) in San Diego, on May 4, which was also streamed live through [YouTube](#).^{[144][145]} It also screened at the [Cannes Film Festival](#) on May 18 in an Official Selection Screening, where it received a five-minute standing ovation from the audience. The Cannes premiere included a tribute to Cruise and his career.^{[146][147]} The following day it had its UK premiere at the [Royal Film Performance](#) at London's [Odeon Luxe Leicester Square](#) in aid of the [Film & TV Charity](#).^[148] [ScreenX](#) theaters^[149] and [AMC Theatres](#)^{[150][151]} held Early Access Event screenings at limited locations across the United States on May 24, 2022.

Home media [\[edit\]](#)

[Apple TV+](#) attempted to purchase the distribution rights to *Top Gun: Maverick*, but Paramount declined to sell them. When asked at the film's CinemaCon premiere about Apple and other streaming companies attempting to purchase the distribution rights, Bruckheimer said that the film had always had a big-screen destination. At the film's premiere at Cannes, Cruise also denied that the film was going to streaming.^{[152][153][154]} Despite the model that most films debut on streaming 45 days after their theatrical releases,^[155] Paramount decided to keep *Top Gun: Maverick* in theaters for an extended run due to Cruise's insistence and the successive week-to-week box office results of the film. The film was released digitally in standard definition, high definition and UHD on August 23, 2022, followed by the [Ultra HD Blu-ray](#), [Blu-ray](#), and [DVD](#) releases on November 1, 2022, in the United States^[156] and October 31, 2022, in the United Kingdom.^[157] It includes the [expanded aspect ratio of 1.90:1](#) in select sequences as seen in [IMAX](#) screenings, four [featurettes](#) on the making of the film, Cruise discussing his career at the 75th Cannes Film Festival and two music videos of the songs featured in the film.^[158]

[Paramount+](#) and [SkyShowtime](#) (under the joint venture between both [Paramount Global](#) and [Sky Group](#)) made *Top Gun: Maverick* available to stream on December 22, 2022 as part of a customer's subscription to either service.^{[159][160]} In the United States, *Top Gun: Maverick* became the most-watched film to debut on Paramount+.^[161]

Release

The first season consisted of eight one-hour-long episodes which were released worldwide on Netflix on July 15, 2016,^[82] in **Ultra HD 4K**. The second season, consisting of nine episodes, was released on October 27, 2017, in HDR.^{[83][84]} The third season once again consists of eight episodes,^[85] and was released on July 4, 2019.^[86] The fourth season, consisting of nine episodes, was released in two volumes on May 27 and July 1, 2022, respectively.^{[87][88][89]} In February 2022, Netflix renewed the series for a fifth and final season.^[90]

Shortly after the fourth season's release, viewers reported that Will's friends did not acknowledge his birthday in an episode of the season that took place on that day. The Duffers said in an interview that they could rectify the matter by changing its month, which they called "George Lucas-ing the situation", in reference to the **canon changes** that **George Lucas** had made to the original *Star Wars* trilogy to match what the prequel trilogy had added.^[91] Some viewers took this to imply that scenes from earlier seasons were also being edited, including one scene where Jonathan takes discreet pictures of a pool party that Steve, Nancy, and Barbara are holding. The writers stated that "no scenes from previous seasons have ever been cut or re-edited", including this scene.^[91]

Home media

The first season of *Stranger Things* was released on a Blu-ray/DVD combo pack exclusively to **Target** retailers on October 17, 2017, and the same for the 4K/Blu-ray combo pack on November 15, 2017, both of which includes vintage **CBS-FOX** VHS-inspired packaging.^{[92][93]} The second season received a similar release on November 6, 2018.^{[94][95]}

Reception

Audience viewership

Netflix did not initially reveal subscriber viewership numbers for their original series, and **Symphony Technology Group** compiled data for the season based on people using software on their phones that measures television viewing by detecting a program's sound. According to Symphony, within the first 35 days of release, *Stranger Things* averaged ratings of around 14.07 million adults between the ages of 18–49 in the United States. This made it the third most-watched season of Netflix original content in the U.S. at the time behind the first season of *Fuller House* and **fourth season of *Orange Is the New Black***.^[96] In a September 2016 analysis, Netflix found that *Stranger Things* "hooked" viewers by the second episode of the first season, indicating that the second episode was "the first installment that led at least 70 percent of viewers who watched that episode to complete the entire first season of a show."^[97]

For the third season, Netflix revealed that the show had broken viewing records for Netflix, with 40.7 million households having watched the show in its first four days, and 18.2 million already

- The arrival of multiple streaming platforms and then the pandemic changed how we engage with home entertainment!
- Some films are released only to DVD or blu-ray and not both
- Some production studios decide not to release something after listing it with our vendors
- Streaming platforms may release some content to home media but not others

Catalogers can help look out for bootlegs. Some things to check for:

- Flimsy case
- DVD seal on case inside plastic shrink wrap
- Duplicate UPC, or no results when searching UPC
- Lack of records in WorldCat
- Poor quality labels
- Poor image quality when viewed
- Should include FBI anti-piracy warning when viewed

Thank you!
