# Facts about Polish Titles in the CCS Catalog

- Number of Polish titles in the CCS catalog: 17563
- Number of Polish item records in the CCS catalog: 25734
- Number of unique Polish titles that will be added from Mount Prospect's catalog: 2552
- Average lifetime circulation of Polish items: 23 checkouts per item (NOTE: This is a higher average number of checkouts per item than the topics covered in the Diversity Audit Tool.)
- [Polish National Library's authority file website](#)

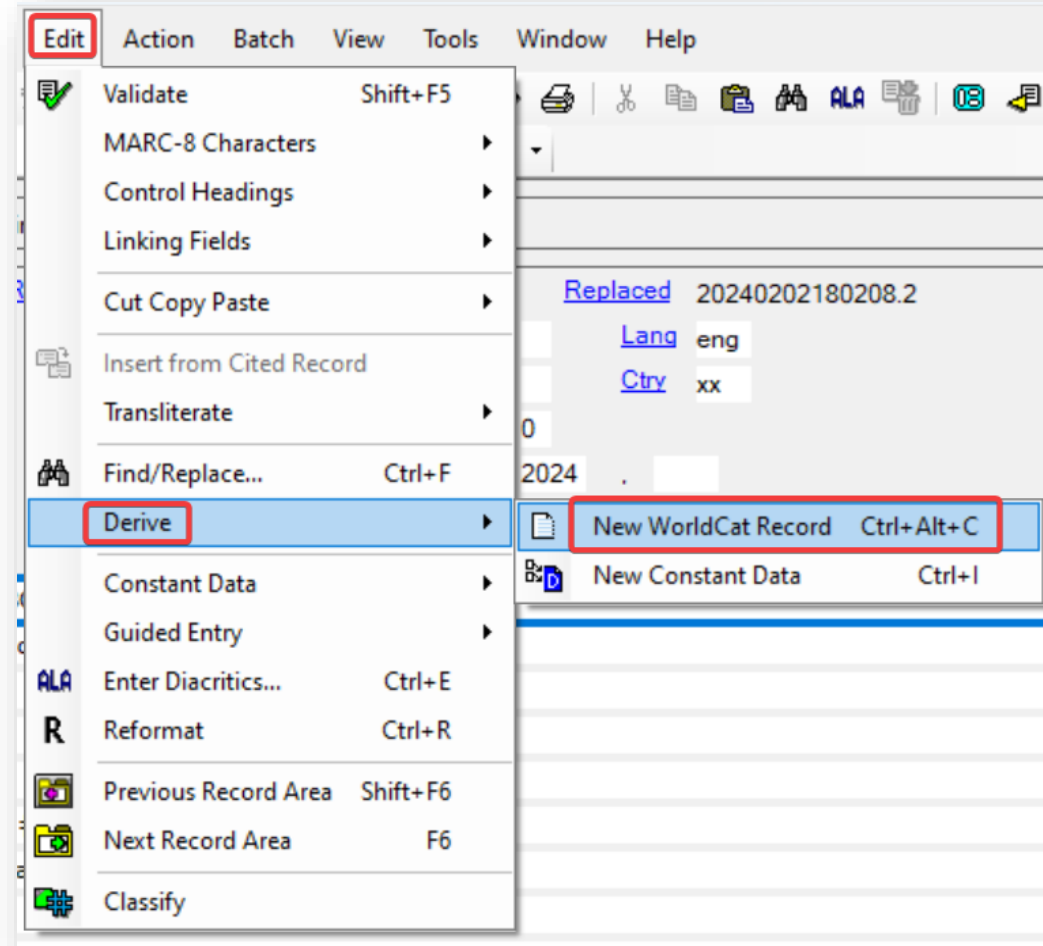

# If the motion passes...

- The Cataloger's Wiki will be updated.
- The RAILS World Cataloging Service profile will be updated.
- CCS will investigate options for a retroactive cataloging project.

# Suggested Workflow

1. Use OCLC Connexion for cataloging these titles so the diacritics can be exported using the UTF-8 settings.
2. Search for the Polish language record in OCLC Connexion.
3. Copy the Polish subject headings in the 650 and 651 fields with \$2 dbn and paste them in the English language record. NOTE: If there are no headings with a \$2 dbn, you may find Polish language headings with other source codes in the \$2. You can verify if the headings are the same as the ones used by the Polish National Library at <https://www.bn.org.pl/dla-bibliotekarzy/deskryptory-bn> .
4. Run the local practices macro.
5. Export the record.
6. Import the record to the CCS catalog.

# Derive a Record in OCLC

# New Weeding Workflow Records

- Weeding Templates – Settings for the Record Sets:
  - Streamlines the withdrawing and deleting of records
  - Alerts you to items that you may not want to be withdrawn
  - Power search criteria for filters
  - How old the record should be.
- Weeding Record Sets
  - Review the list to identify items that shouldn't be withdrawn
  - Approval process can be used to streamline withdrawing and deleting records
